

NEW FEATURES AND ENHANCEMENTS ON 1LINKsm

The new 1Link system platform is even more convenient and user-friendly, offering the latest technology, added flexibility, real-time postings for all reporting functions, and enhanced Transaction Processing functionality. In addition, 1Link's navigation has been streamlined, giving the system a cleaner, more modern look.

Administrative and Information Reporting Enhancements:

- Gain added flexibility and user control – New dashboard feature allows you to personalize 1Link and tailor it to your needs
 - » Get easy access to your financial information by adding widgets (mini applications) to your dashboard
 - » Set and reset your own password and alerts in the Preferences menu
 - » View online tutorials and help at your convenience
- Get More Dynamic Reporting – Reports are now customizable and real-time info gives you up-to-the-minute data. Prior and Current Day Balances screens can be easily customized, giving you the ability to filter, reorder, and perform calculations on the columns, as well as change the font colors and styles!

Safekeeping Enhancements:

- Review your entire Safekeeping Holdings portfolio — now including pledged securities
- Initiate transactions from your Safekeeping Holdings List
- Import Safekeeping trades from Excel directly into 1Link, allowing the processing of multiple transactions at the same time
- Input multiple Safekeeping trades to be processed per transaction type

Funds Transfer Enhancements:

- Import Wire transactions from Excel directly into 1Link, allowing the processing of multiple wires at the same time
- Export wire transaction detail to assist in the processing of your OFAC files
- Process book wires to internal HLB accounts

Advances Enhancements:

- Initiate short-term, forward-start advances
- See your entire Outstanding Advances Portfolio in real-time
- Request real-time rate indications on advance products, where applicable

You can create the following Advance transactions through 1Link:

Type	Term
Overnight	1 Day
Short-Term Fixed	1 Week to 11 Months <i>(Other user-defined maturity, but not greater than 330 days)</i>
Repo	1 Week to 6 Months <i>(Other user-defined maturity, but not greater than 180 days)</i>
NEW Repo	Over 6 Months to 11 Months <i>(\$25 million per transaction limit until noon)</i>
COMING SOON Longer Terms on Repo and Fixed	Repo: Over 11 Months to 5 Years Fixed: 1 to 5 Years <i>(\$25 million per transaction limit until noon)</i>

The HLB may periodically offer additional Advance products. Stay tuned for updates.
