

THE MORTGAGE ASSET PROGRAM OVERVIEW

A New Secondary Market Outlet for FHLBNY Members

The Federal Home Loan Bank of New York (FHLBNY) offers the Mortgage Asset Program (MAPsm) as a secondary market outlet for Participating Financial Institution (PFI) members to fund mortgages and be competitive in offering fixed-rate mortgage loan products. MAP gives mortgage lenders a competitive alternative to funding mortgages on a new flexible and transparent operational platform.

MAPsm Features

- A flexible program with competitive pricing catered to our local markets
- No loan level price adjustments
- A pathway to accumulate FHLBNY Stock – members are required to purchase capital stock equal to 4.5% of what they deliver into MAP
- Simplified credit risk sharing structure with the added potential to be rewarded with fee income for strong loan performance
- No risk-based capital requirement or collateralization on loans sold

THE MORTGAGE ASSET PROGRAM OVERVIEW

PFI's can deliver fixed-rate conforming conventional and government mortgage loans with terms of 15, 20, and 30 years on owner-occupied primary and second homes. Property types include 1-4 unit, condos, units in Planned Unit Developments (PUDs), rural, and mixed-use. In addition, PFI's have a choice of remittance types: Actual/Actual Multiple, Actual/Actual Single and Scheduled/Scheduled. A servicing-released alternative is also available.

PFI's are required to purchase capital stock equal to 4.5% of the amount delivered into MAP. MAP does not have collateralization or risk-based capital requirements.

Simplified Risk-Sharing Structure

- MAP credit risk sharing structure rewards PFI's for originating high quality, well-performing loans.
- At the time of purchase, FHLBNY will set-aside a standard credit enhancement of 1.5% for every loan funded, to be retained in a Member Performance Account (MPA) for each PFI.
- Loans are pooled into Aggregate Master Commitments.
- Loan losses over the life of the pool are absorbed in order by borrower's equity, mortgage insurance (if applicable), MPA, and finally by FHLBNY.
- If pooled losses are low, MPA funds are returned to the seller over time, based on a contractual release schedule.
